Rough Total (including shipping and tax)	300.00

\*\* If you choose to go with one of the other manufacturing companies for your plate carrier, realize your configuration for magazine pouches and attachments may be different. We recommend going with the Ferro Slickster because of how easy it is to use and inexpensive to set up without sacrificing quality and dependability.

\*\* At this time ballistic plates are not incorporated into the set up of the plate carrier. When you purchase plates make sure you are buying plates that will properly fit into the plate carrier. We will be adding plates to this set up when we complete our ballistic plate video and supporting document.

\*\* Until we complete the ballistic plates video and supporting document, we only recommend the Safariland Protech Plates to be purchased for your plate carrier.

**PRICES MAY VARY FROM SITE TO SITE AND WHETHER THE EQUIPMENT IS NEW OR USED.**

If there are any items that you feel would be beneficial to add to this video and list please feel free to contact us at any time and we will take your recommendation in to consideration.
